

Advance Preparation for Collage Landscape Class (BEACH)

Landscapes created in this class are fused. Applying the fusible web (Pellon Wonder Under 805) to your fabrics in advance allows students to begin the design process more quickly.

Water Fabrics:

Cut a 9" x 18" strip of fabric from each fabric for water

Cut a 9" x 18" strip of wonder under for each fabric strip

Apply the wonder under strip to the back (wrong side) of each water fabric strip

Leave the release paper on

Sand Fabrics:

Cut a 9" x 18" strip of fabric from each fabric for sand

Cut a 9" x 18" strip of wonder under for each fabric strip

Apply the wonder under to the back (wrong side) of each sand fabric strip

Leave the release paper on

Sun Fabric:

Cut a 6" square of fabric for the sun

Cut a 6" square of wonder under

Apply the wonder under to the back (wrong side) of the sun fabric

Leave the release paper on

Grass Fabric:

Cut an 8" square of fabric for the grass

Cut an 8" square of wonder under

Apply the wonder under to the back (wrong side) of the grass fabric

Leave the release paper on

Fence Fabric:

Cut an 8" square of fence fabric

Cut an 8" square of wonder under

Apply the wonder under to the back (wrong side) of the fence fabric

Leave the release paper on

DO NOT APPLY WONDER UNDER fusible to the back of your **LOG, SKY or ROCK/PEBBLE** fabric
