

## Advance Preparation for Collage Landscape Class

Landscapes created in this class are fused. Applying the fusible web (Pellon Wonder Under 805) to your fabrics in advance allows students to begin the design process more quickly.

### **Grass & Ground Fabrics:**

Cut a 9" x 17" strip from each fat quarter

Cut a 9" x 17" strip of wonder under for each fabric strip

Apply the wonder under strip to the back (wrong side) of each grass or ground fabric strip

Leave the release paper on

### **Bushes Fabrics:**

Cut an 8" square of each fabric for bushes

Cut an 8" square of wonder under for each 8" square of fabric

Apply the wonder under to the back (wrong side) of each fabric square

Leave the release paper on

### **Floral Fabric:**

Cut an 8" square of small scale floral fabric

Cut an 8" square of wonder under

Apply the wonder under to the back (wrong side) of the floral fabric

Leave the release paper on

### **Water Fabric:**

Cut a 10" square of water fabric

Cut a 10" square of wonder under

Apply the wonder under to the back (wrong side) of the water fabric

Leave the release paper on

**DO NOT APPLY WONDER UNDER** fusible to the back of your **TREE, SKY or PATH** fabric
